THIS POSITION IS ALREADY CLOSED (as of Jan 27/06)

Senior Policy Advisor, Continuing Care
Senior Policy Advisor, Strategic Corporate Policy

Manager
Salary: $63,624 to $81,516

Two exciting and challenging opportunities exist within the Policy Branch of Alberta Health and Wellness to help us implement our departmental strategic direction. The successful candidates will lead and direct activities and projects intended to assist with planning for the needs of the health system. One position has a significant emphasis on continuing care and the other position on Third Way Initiatives.

For both positions, your demonstrated project management abilities and well-developed consultation and communications skills will be essential in managing complex projects with multi-disciplinary teams in the areas of health services and health system policy, program development and evaluation. The Senior Policy Advisor, Continuing Care must have strong knowledge of quantitative analysis including continuing care standards, case-mix classification systems and leading research on aging. The Senior Policy Advisor, Strategic Corporate Policy requires a broad understanding of: the health system, policy analysis and development, and the government framework coupled with the ability to influence change.

Qualifications: The ideal person for these positions will have extensive management experience in policy development, evaluation processes, and implementation planning. Knowledge of the regional health authority structure in Alberta is desirable. A Masters degree in a relevant discipline such as business/health administration, gerontology, sociology, or a clinical health discipline is preferred. Equivalencies will be considered.
